### **COUPLET 1**

Drinking coffee to heat my soul up  
As people mutter about the cold  
I'm thinking about filling my cup up  
But soon I will have to join the mold

Raw rain drips wet onto the ground  
I'm under shelter and watching them fall down  
The puddles get bigger under the wet water  
And reflections are visible from where I stand

### **REFRAIN x2**

Bathing in the cold wet pouring rain  
All I wanna do is take my clothes off  
Try and feel free, feel free again  
Close my eyes and see, see no end

### **COUPLET 2**

Drinking coffee to heat my soul up  
As people mutter about the cold  
I'm thinking about filling my cup up  
But soon I will have to join the mold

I watch people walking on the pavement  
No smile to be found  
The rain is dripping wet down their faces  
The thunder of the sky is beating loud

### **REFRAIN x2**

Bathing in the cold wet pouring rain  
All I wanna do is take my clothes off  
Try and feel free, feel free again  
Close my eyes and see, see no end
