

I'm the demon

Dark, dark, atmosphere
Cold cold weather

Couplet 1

See me watching you
Flattery, loving you
Diamonds shining bright
Eyes hole open wide

Refrain

**I'm a demon, demon, demon of the night
Watch my crown glow, watch my crown glow, watch my crown glow
You may die of fright**

Couplet 2

I may be watching you, feeling you, eating you, in your sleep
I may be hearing you, feeling you, scaring you in your dreams,

Stargaze flutters by, wings praise for goodbyes,
Watch my crown glow
You may die of fright

Refrain

**I'm a demon, demon, demon of the night
Watch my crown glow, watch my crown glow, watch my crown glow
You may die of fright**

Couplet 3

You may get scared but don't worry my dear
I'm the angel, I will protect you from all your fears
Now i'm the real angel that makes everythting clear
The dark sun of your days is almost here
My dear

Refrain

**I'm a demon, demon, demon of the night
Watch my crown glow, watch my crown glow, watch my crown glow
You may die of fright**
