

Think About It

You say you want my love
You say you want my time
Your needs and all your wants
Are really out of line

You want to be my friend
You want to be my half
The deep waters of your mind
Are really kind of messy
I'll tell you what I think
I know just what to say
I'm really quite decided
to have it my own way
I'll tell you what it is
I'll tell you here and now

**I'll think about it, think about it
Wanna dream about it, dream about it
I'll think about it, think about it
Wanna laugh out loud
I'll think about it, think about it
Might laugh about it, laugh about it
Won't lose sleep about it, sleep about it
I'm really much to proud**
